Third-trimester abortions on viable babies

Minors to receive abortions without parental consent

Protection for abusers, pedophiles, and sex traffickers

Taxpayer-funded abortions

WHAT IS VIRGINIA'S ABORTION LAW NOW?

Abortion is legal in the first two trimesters, with no regulations

Abortion is legal in the third trimester if:

- 3 physicians approve
- Performed in a hospital
- Medical care for infants born alive

The ballot question's language is vague and misleading: this amendment will NOT uphold current Virginia law, it will allow unregulated, post-viability abortion.

Abortion is legal in **ALL TRIMESTERS** if there is a medical emergency.
